EMPLOYMENT HISTORY

FULL STACK DEVELOPER *VISTECH*

Jul 2023 – Sep 2025
Hartford, CT

- ♦ Built React + TypeScript interfaces for internal business tools
- ♦ Migrated legacy UI systems to modern React architecture
- ♦ Reduced UI support tickets by 30%
- ♦ Collaborated with UX and backend teams in Agile workflows
- ♦ Integrated REST APIs and improved performance/load times
- ♦ Implemented Jest testing workflows to reduce regression bugs.
- ♦ Used GitHub Actions for deployment automation with Microsoft Azure.

FRONTEND DEVELOPER *GO-Digital*

Oct 2019 – Jan 2021
Bulawayo, ZW

- ♦ Led frontend development initiatives for high-performance WordPress and custom web platforms, driving technical decisions and maintaining a strong focus on responsiveness, accessibility, SEO optimization, and scalable frontend functionality using JavaScript and modern UI practices.
- ♦ Collaborated closely with designers, stakeholders, and cross-functional teams to establish UX standards, guide implementation strategies, integrate secure eCommerce and payment solutions, and optimize checkout experiences for usability and conversion efficiency.
- ♦ Spearheaded the design, modernization, and deployment of websites for 350+ primary schools nationwide, improving digital accessibility, user engagement, navigation structure, and overall platform reliability across diverse user groups and devices.

PERSONAL PROJECTS

- ♦ Built AfriVerse, a community-driven archive of African literature with author discovery, user contributions, admin moderation, and branded transactional email — deployed on Vercel with Supabase Auth and PostgreSQL.
- ♦ Developed a React + TypeScript portfolio site in Tailwind CSS and MongoDB
- ♦ Created a movie watchlist app in React using the OMDb API with persistent state via local Storage.
- ♦ Engineered a campsite reservation app with Bootstrap and vanilla JavaScript using Agile development practices.

EDUCATION

COMPUTER SCIENCE *University of Rhode Island*

Aug 2019 – May 2023
Kingston, RI

Object-Oriented Programming, Data Structures, and Algorithms, Software Systems Development, Computer Networking and Security, Database Management Systems, Computer Architecture, Social Issues in Computing

OTHER EMPLOYMENT

DISH WASHER/ FOOD PREP *Outback Steakhouse*

Jul 2025 – Jan 2026

Maintained kitchen cleanliness, sanitation, and operational efficiency by managing dishwashing, food prep support, waste disposal, and organization in a fast-paced restaurant environment.
